

I just want to say that I am totaly for the Do Not Call program. I hate coming home and being harrassed by the same company 6 times in two hours for the same thing. I don't want to change my phone service. I shouldn't have to tell 6 people from the same place EVERY night!!! I have three young kids in the house and the phones always wake them up at night. These people call my house at 7:00am till 10:00pm and that is not fare to people who get up at 5:00am to go to work / school. Even with the Do Not Call in place I have people calling me just not as much as before. I think it is invading my privacy and my time with my children.
